TOWN WARRANT

To the Inhabitants of the Town of Eaton in the County of Carroll in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Odd Fellows Hall in said Eaton on Tuesday, the thirteenth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same including General Government, Protection of Persons and Property, Health Department, Highways and Bridges, Public Welfare, Interest on Loans, Payment on Debt.

3. To see if the town will vote to accept State Aid on Highways and Bridges and make appropriations for the same.

4. To see if the town will authorize the Selectmen to hire money if necessary.

5. To see if the town will authorize the Selectmen to administer or dispose of any Real Estate acquired by the town through tax collector's deeds.

6. To see whether beer or other lawful alcoholic beverages shall be manufactured or sold locally as permitted under this act (Laws of 1933, Chapter 99, Section 22).

7. To act upon any other business that may legally come before said meeting.

Given under our hands and seal, this sixteenth day of February, in the year of our Lord nineteen hundred and thirty-four.

CHESTER H. BEAN,
WINFIELD S. HEAD,
Selectmen of Eaton.

A true copy of Warrant—Attest:

CHESTER H. BEAN,
WINFIELD S. HEAD,
Selectmen of Eaton.

1. The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science.

2. The second part of the paper is devoted to a discussion of the various theories of the origin of life. It is shown that the most plausible theory is that of spontaneous generation.

3. The third part of the paper is devoted to a discussion of the evidence in favor of spontaneous generation. It is shown that the evidence is very strong and that the theory is well supported by the facts.

4. The fourth part of the paper is devoted to a discussion of the objections to spontaneous generation. It is shown that the objections are not well founded and that the theory is still the most plausible.

5. The fifth part of the paper is devoted to a discussion of the future of the study of the origin of life. It is shown that the study is still in its infancy and that much more work is needed.

6. The sixth part of the paper is devoted to a discussion of the philosophical implications of the study of the origin of life. It is shown that the study has important implications for our understanding of the universe and of ourselves.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Eaton:

I herewith submit my seventh annual report as superintendent of schools, it being the fourteenth in the series of such reports.

I congratulate the citizens of Eaton on so loyally supporting their school in these times of stress and strain. It is the evident belief of Eaton people that the welfare of boys and girls is of first importance. It has well been said that childhood comes but once and if the children are denied their privileges, the loss can never be recovered. Roads can be rebuilt, childhood cannot.

In a well kept building, the Snowville school is endeavoring to give instruction in facts of knowledge, and also lessons in self-control and regard for the rights of others. It is well said that education today is not only gathering facts of knowledge, but it is also training for lives of service in public welfare.

Jessie Gray, President of the National Education Association, says, "The American common school is the expression of a mighty faith. It has grown up out of need and aspiration. It is the bulwark of those democratic ideals and rights for which mankind has sacrificed and suffered throughout the ages. It is the home of light and of reason. It is the hope of a better tomorrow. The common school is the house of the people."

REPAIRS AND IMPROVEMENTS

The schoolroom needs a teacher's desk and a cabinet for the dishes used in the noon lunch. Outside we need a graded and beautified school yard. Plans have been made which, if carried out, would make the school one of the most attractive places in town. The plans include a bank wall and grading, eliminating the road which runs close to the doorstep, and recondition of the old road near the cemetery wall. Plants and shrubbery would complete the work with artistic beauty.

VISUAL INSTRUCTION

The motion picture has brought help and enjoyment to the boys and girls. Already pictures of health,

safety, kindness to animals, flowers, geography and history have been given. The picture, "Daniel Boone," was given in Odd Fellows' Hall and the public was invited. This was a strong picture of early pioneer life in the Kentucky region. The entertaining picture, "Captain January," was favorably received everywhere. Since we learn more through the eye than through any other sense, this comes to have special value.

HEALTH WORK

The health work goes forward under the care of Miss Langille, the school nurse. Her printed report speaks in detail of work accomplished. This is a most important phase of our school work since, "A sound mind crowns a sound body."

In this connection, parents are reminded that children must be vaccinated before entering school. This should be done by August 20. It is not right to delay and then keep the children out of school in September to have the vaccination done.

The attention paid to the school shows that Eaton citizens are interested in child welfare. The conditions of our country show that we need well-trained citizens, and the way to train is to begin in youth. Honest, loyal, efficient, helpful and law-abiding citizens are not made in haste. A squash can be grown in one season, but it takes years of slow, hard growth to make a sturdy, spreading oak. The twig can be bent. The tree cannot.

A PIECE OF CLAY

"I took a piece of plastic clay
And idly fashioned it one day,
And, as my fingers pressed it still,
It moved and yielded to my will.

"I came again when days were passed—
The bit of clay was hard at last;
The form I gave it, it still bore,
But I could change that form no more.

"I took a piece of living clay
And gently formed it day by day,
And moulded with my power and art
A young child's soft and yielding heart.

"I came again when years were gone—
It was a man I looked upon;
He still that early impress wore,
And I could change him nevermore."

ATTENDANCE

For the year ending June 30, 1933, we had an average attendance of 16.78, an average membership of 17.52, and a per cent. of 95.77. This is better than last year and should encourage us for this year.

Last June we graduated a class of five from the eighth grade: Beulah White, Vera Nelson, Iva Johnson, Calvin Johnson and Samuel Head.

HIGH SCHOOL ATTENDANCE

Frances Sanborn,	Somerville High School
Woodrow Allard	Kennett High School
Lawrence Bean,	Kennett High School

Our boys and girls do well when they go out to high school. More of our boys and girls should go beyond high school to college and normal school.

ROLL OF PERFECT ATTENDANCE

One Term—1932-33

Zoe Head, Robert French, Merton DeWitt, Richard DeWitt.

Three Terms

Samuel Head, Russell Bean.

In conclusion, I wish to thank the school board, teachers, pupils and citizens for helpful support.

REPORT OF SCHOOL HEALTH WORK

To the Townspeople, School Board, and Superintendent of Schools:

Once again the children of the Snowville School had the honor to achieve a 100% record for dental corrections, this being the second year that they won this distinction. This was possible through a dental clinic which was held in Madison to save time in packing and unpacking equipment which was already set up in that town. It made a very long day's work for the dentist to do a thorough job upon the mouths of eighteen children, but all the laborious work was finally done and well done and paid for through the industry of the children themselves and the generosity of the School Board.

All physical defects were corrected with the exception of four cases of bad tonsils. It seemed impossible to get the money for this work.

The physical examinations this year show that only four entering children have dental defects. Four children are under-weight (of whom two have already come up to weight due to the milk served in school) and the same old tonsils left over from last year add another four to the defect lists.

Because of the tendency of the present economic difficulties to undermine the health of the children all agencies are united to prevent any serious damage. To this end the Federal and State Emergency Relief measures have provided a fund to be set aside for serving milk to school children needing it. Last spring seven children of the Snowville School were served daily with half pint bottles of milk and all this winter ten children are being served with this milk. This, together with the hot lunches which the teacher has served to the children, has kept the children in excellent condition as well as putting two of the underweight children back in the perfect lists and helping the weight of the other two greatly. Cod Liver Oil is now on the way for some of these children who need a tonic or builder.

As usual, the school has shown an unusual interest in the health work this year. They have been faithful in the health habits and have worked hard for their own corrections. This is due to the interest and en-

thusiasm of the teacher, Miss Alice Whiting, and to the excellent cooperation of all of the parents in giving permissions and encouragement to the work.

1932-1933

Children examined,	18
Defects found—1.6 per pupil,	30
Corrections made—73% of defects,	22
Without defect—77% of pupils,	14
Visits to school,	9
Visits to homes,	8
Total visits,	17
Days spent,	3.8

Respectfully submitted,

RUTH S. LANGILLE, R. N.,
School Nurse.
